

Wine Charades

How to Play:

Print out the cards below and shuffle them. Put them on the table upside down ready to be selected

Arrange your guests into 2 teams.

Decide which team goes first. One person acts out the words and the rest of the team guesses as many of the words as they can in 2 minutes. One of the other teams keeps time and score. Each person takes turns at miming.

I've left some cards blank at the end for you to make up your own if you feel like having some more fun.

Objective:

Team with the most points at the end of the game wins the game.

Rules:

Actors must not say anything during the charades. Laughter is allowed.
